CalRecycle Grant manager: Carla Repucci

Project Summary: No current alternate or supplemental funding source for this project could be identified. The roadway which allows property entry is not a part of any transportation department maintained system. Therefore, roadway property portion remains solely as parcel owner responsibility for maintenance. But since the parcels are vacant and owned by individuals who do not live near their parcels, maintenance of or adjacent to the road is rarely, if ever, performed. For years, cleanup of this site has been a considerable concern to many local residents and government officials including the Board of Supervisors. A significant effort has been expended to identify funds for cleanup of this and many other illegal dumping sites. Contacts have been made to the Natural Resource Conservation Service, Resource Conservation District, County Environmental Program, All contacts have been to no avail regarding funds to remediate the site.
